

THE NEW MAIN SCIENTIFIC CONTRIBUTION OF THE THESIS

Name of thesis: Research of genotype, phenotype and results of supportive care in children with pachyonychia congenita.

Speciality: Pediatric

Code: 9720106

Full name: Chu Thi Ha

Full name of supervisor:

1. Professor. MD. PhD Vu Van Quang

2. Professor. MD. PhD Le Huu Doanh

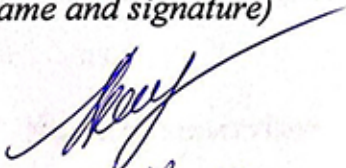

Educational foundation: Haiphong University of Medicine and Pharmacy

Summary of new main scientific contribution of the thesis

1. To provide a first comprehensive study of the genotypic and phenotypic characteristics of Vietnamese children with pachyonychia congenital
2. To communicate and exchange information patients with pachyonychia congenital in Vietnamese and over world.
3. To reduce the cost of genetic testing with a saliva sample as a non-invasive test while ensuring diagnostic accuracy.
4. To implement genetic testing in Vietnam in the near future, support clinicians and para-clinicians.
